Birthday Party Topics (Please indicate first and second choice):

___ **Birthday Party A:** Air Blast - This birthday party is an action-packed time of exciting exp-AIR-iments! Hold on to your hats for the air-shooting Megazooka.

___ **Birthday Party B:** Mad About Blue - This birthday party lights the way for an hour of dazzling demos and awesome activities! Electrically excite the gas in tubes with the Tesla coil.

___ **Birthday Party C:** Reactions in Action! - This birthday party is sure to catalyze a reaction with kids! See the light side of chemistry when chemicals mix to create a blue glow.

___ **Birthday Party E:** Energize It! - Party-goers will participate in energetic activities including lightning-fast siphon chains, crackling static relay races, a hot hands dance, and popping hot chemical reactions.

___ **Birthday Party SLIME:** All things SLIME! Make snow slime, slime snow balls, become atoms, unmake slime, turn styrofoam into goo, see slime glow, and of course - make your own slime to take home!

___ **Birthday Party Young Wizards:** (must choose grand event + dry ice for this party theme) Melt Voldemort's head, see a magic wand create light, find the student that has the mark of the master, and watch mystic ice experiments!
